SIN(s) PROPOSED	Course Title	PRODUCT DESCRIPTION www.TransAccessDM.com	Price Per Course or Per Person	PRICE OFFERED TO GSA (including IFF)
51-600	TA Admin Training	TRANSACCESS ADMINISTRATION MODUE: This course is designed to provide participants with the skills they need to be successful implementing TransAccessDM. Participants receive a detailed overview of the technology and architecture of TransAccessDM. They will be able to configure the TransAccessDM Management Console. Participants will also use advance Designer to design customized profile and search forms, as well as customize the file folder layout. They will integrate and configure applications to create and save documents. Users will learn about Indexes to enable the full-text indexing of documents. Furthermore, they learn to configure Views, configure user settings and create custom reports.	Class/ 1-10 students	\$5,875.00
51-600	File Folder Modeling	FILE FOLDER MODELING: This course is designed to provide participants with the skills to create TransAccessDM Files folders and sub-folders to organize your files. Creating a logical filing system makes it easy to locate and link to files when creating content in your course. The folder structure in TransAccessDM Files is separate from folders in a content area of your course and has no impact on the presentation of the content. Folders can also make it much easier to manage permissions for your content. If you want to allow certain users the ability to read, write, or remove items, you can group them in one folder and edit permission for the folder rather than on individual items.	Class/ 1-10 Students	\$5,875.00
